

Welcome to Esterline's new Lean engineering and manufacturing facility for KORRY® human-machine interface products

11910 Beverly Park Road
Everett, WA 98204
425-297-9700
info@korry.com

Our new facility is not just a new space. It is designed and built to perform as a 21st century Lean manufacturing machine, inside a 216,000-square-foot high-bay building (approximately 4.9 acres) located on a 14-acre parcel at the south end of Paine Field. The unitary footprint and flexible infrastructure let us deploy our people and

configure our processes as efficiently as possible, and adapt quickly as requirements change.

- The single, open structure allows for immediate physical adjacencies.
- People and material can move through the facility without having to cross streets or move up or down separate floors.
- The open environment means direct visual contact and improved communication flow.

- One material trolley route operates through the whole facility.
- Energy and operating efficiencies result in lower costs.

In pursuit of Silver LEED Certification (Leadership in Energy and Environmental Design), our operating facility features:

- Alternative transportation support (public transit, carpool/vanpool, LEV, etc.)
- Roof structure with reduced energy absorption
- Water-efficient design for 40-percent lower water consumption
- Low-water landscaping with drought resistant plants and high-efficiency sprinkler system
- Elevated level of recycled content
- Elevated level of local content
- Energy-efficient HVAC and humidification systems
- Enhanced refrigerant management
- Low chemical emitting materials
- For more information, please visit www.korry.com/LEED

ESTERLINE CONTROL SYSTEMS

Directions from SeaTac Airport or Seattle

- Get on I-5 North.
- When you reach the interchange with I-405 and WA-525, exit and merge onto WA-525 North.
- Stay on WA-525 North as it turns into the Mukilteo Speedway.
- Turn right onto Beverly Park Road.
- Esterline Control Systems is on the left.

Directions from Bellevue

- Get on I-405 North.
- When you reach the interchange with I-5, do not exit. You will cross over I-5 on an overpass, and I-405 North turns into WA-525 North.
- Stay on WA-525 North as it turns into the Mukilteo Speedway.
- Turn right onto Beverly Park Road.
- Esterline Control Systems is on the left.
